Synopsis: Environmental variances and other matters. Makes the following changes concerning variances from environmental rules: (1) If a variance would be in effect for more than one year: (A) the application for the variance must include a demonstration of how the applicant would come into compliance with the rule within the period for which the variance would be in effect; and (B) the variance, if granted, includes a schedule requiring the person to come into compliance with the rule within the period for which the variance will be in effect, and the variance may be revoked for failure to comply with the compliance schedule if the person fails to meet the requirements of the compliance schedule and, after the end of the variance period, the person is given a reasonable opportunity to meet the requirements of the rule and still does not come into compliance with the rule. (2) Eliminates the renewal of variances, except for variances from certain water quality standards. Authorizes the department of environmental management (department) to require the submission of information or documents electronically. Requires the department to offer certification examinations for certain water treatment plant operator and water distribution system operator certifications at least once per year. IC 13-20.5-3-1(b)(2).

STEP THREE: Subtract the number of pounds determined in STEP TWO from the number of pounds determined in STEP ONE.

STEP FOUR: Multiply the greater of zero (0) or the number of pounds determined in STEP THREE by the per pound cost of recycling established as follows:

(A) Forty cents (\$0.40) per pound for manufacturers that recycle less than fifty percent (50%) of the number of pounds determined in STEP ONE.

(B) Thirty cents (\$0.30) per pound for manufacturers that recycle at least fifty percent (50%) but less than ninety percent (90%) of the number of pounds determined in STEP ONE.

(C) Twenty cents (\$0.20) per pound for manufacturers that recycle at least ninety percent (90%) of the number of pounds determined in STEP ONE.

(3) The number is multiplied by one and six-tenths (1.6) to the extent that the covered electronic devices were:

(A) recycled from covered entities not located in a metropolitan statistical area, as defined by the federal Office of Management and Budget; and

(B) recycled in Indiana.

(f) A manufacturer may retain recycling credits to be added, in whole or in part, to the actual number of pounds of covered electronic devices recycled by the manufacturer from covered entities during the immediately preceding program year, as reported to the department under ~~IC 13-20.5-3-1(b)~~, **IC 13-20.5-3-1(a)**, during any of the three (3) immediately succeeding program years. A manufacturer may sell all or any part of its recycling credits to another manufacturer, at a price negotiated by the parties, and the other manufacturer may use the credits in the same manner. For purposes of this subsection, the

recycling credits for the program year that begins April 1, 2010, are determined taking into account covered electronic devices that the manufacturer recycled, or arranged to have collected and recycled, both:

- (1) in that program year; and
- (2) after June 30, 2009, and before April 1, 2010.

(g) A manufacturer may not be charged a registration fee or a variable recycling fee for any year in which the combined number of video display devices produced by the manufacturer for sale to households is less than one hundred (100).

- (2) The number of recycling credits possessed by the manufacturer that the manufacturer intends to use in the calculation of its variable recycling fee under IC 13-20.5-2-1.
- (3) The number of recycling credits the manufacturer retains at the beginning of the current program year.
- (4) The amount in pounds of covered electronic devices the manufacturer arranged for a recycler to collect and recycle that were not converted to recycling credits.
